AUDITOR'S STATEMENT

I hereby certify that I have examined the accounts of the Treasurer and find them correct and the balance in his hands to agree with the report submitted. I have approved vouchers for all bills paid and find them to agree with the Treasurer's warrants, and in my opinion, the foregoing balance sheet represents a true financial condition of the Town of Ipswich.

DENNISON C. WALLACE,

Auditor.

Ipswich, Mass., Feb. 6, 1936

Essex, ss.

Then personally appeared Dennison C. Wallace, Auditor of the Town of Ipswich, and made oath that the above statement by him is true.

EDWARD S. COGSWELL,

Justice of the Peace.

SELECTMEN'S REPORT — 1935

To the Citizens of Ipswich:

With the passing of the year 1935 we hope that our Town has at last passed its low point and that signs indicating a brighter future are now visible. Our factories report an upward trend in business for the past year and other business men report an improvement in their sales.

Our clamflats have helped considerably, as over 300 claming permits have been issued, and although the clams were not large enough the first half of the year for much digging, during the last few months many men have supported themselves and their families from our flats, and under the intelligent direction and supervision of the clam commsissioners we feel that in the coming year this business will be of immense help to our community.

The Police Department and the Fire Department have been handled very efficiently and we believe have met with the approval of most of our citizens.

Our Highway Department is still more or less a problem to us owing to the often repeated statement of trying to make our limited budget take care of the needs of more than a hundred miles of roadway. Our board feels that as soon as the Town is financially able that we should take up our former program of the building of permanent roads. We are trying to replace certain pieces of obsolete equipment, consistant within the limit of our budget.

We make the following recommendation:

That the Chapter 90 work, so called, for the Topsfield and Mill roads, be continued.

For the past two years our board, with Mr. Wallace as E.R.A. administrator, has had the care and responsibility of all E.R.A. and P.W.A. work. For the year just ended we have received from the Federal Government more than \$100,000. together with approximately \$43,000. of Town funds that has been used to carry on our unemployment work and we recommend that the Town grant us such sum as we shall name in our budget for the coming year's needs.

Regarding the Soldiers Relief Department; if you will look up in our report the record of expenditures you will find that we have shown a fairly substantial reduction over the past few years. This has meant considerable effort but with the assistance of the Clerk of the Board we have been able to reduce to the Town the cost of this department.

We desire to express our appreciation and thanks to our Town Counsel, George A. Schofield, for his unstinting labor and his advice to us during the past year and also to Mr. Robert T. Bamford who was acting Town Counsel during Mr. Schofield's annual vacation.

In accordance with the law the Selectmen have perambulated the lines between the Towns of Rowley, Boxford, Topsfield, Hamilton and Essex. The markers have all been found and re-dated, some that were down have been reset and two, damaged beyond repair, have been replaced. The lines between our clam area and that of Essex have been relocated and markers placed so that disputes between the clammers over bounderies have been curbed, and much to Essex' sorrow we had included in our section flats that they long claimed.

We have tried, to the best of our ability, to economize in every way possible consistant with what we believe to be good business in the handling of our departments' budgets, and in making up our budget for the coming year we have kept this thought constantly in mind. The fact that for the second consecutive year the departments under our direction have completed their year's work without any unpaid bills proves that we have had the welfare of the taxpayer in mind at all times.

We also wish to express to all of the departments of the Town Government our appreciation and thanks for the loyal co-operation that they have given us at all times and we believe that the unity of public service that has been manifest between all departments is beginning to show in our reduced costs. We believe that the heads of all the departments have had the taxpayer in mind in their budget estimates for the coming year and the Selectmen feel at this time that every department of the Town should continue to use strict economy in order that we may be able to keep our tax rate as low as possible.

Respectfully submitted,

HARLAND BURKE,

FRANK R. STARKEY,

BRAINARD C. WALLACE.

REPORT OF TOWN CLERK

Town Clerk's Office, Feb. 1936.

To the Honorable Board of Selectmen:

I herewith present to your Honorable Board the report of the Town Clerk for the year 1935.

Nov. 17—Lillian May Tozier	82
Nov. 25—Harriet M. Johnson	99	7	6

NOTICE

The attention of parents is called to the law relating to the registering of births. The present requirements are as follows:

Chapter 29, Section 6 of the Revised Laws. Parents within forty days after the birth of a child . . . shall cause notice thereof to be given to the Clerk of the town or city in which such child is born.

Section 8. A parent . . . who neglects so to do for ten days after the time limited therefor . . . shall forfeit not more than five dollars for each offense.

ATTENTION OF PHYSICIANS AND MIDWIFES IS
CALLED TO CHAPTER 280, SEC. 1
ACTS OF 1912

Section 1. Physicians and midwives, shall, within forty-eight hours after the birth of every child in cases which they were in charge, mail or deliver to the Clerk of Registrar of the City or Town, in which the birth occurred, a notice stating the date and place of the birth, giving the street number, if any, the number of the ward in a city and the family name. Failure to mail or deliver the said notice shall be punished by a fine not exceeding twenty-five dollars for each offense.

I wish to call attention to the following vital statistics:

It is important that these records shall be correct. If any errors are discovered the Clerk will deem it a favor to have them reported at once, so that correction may be made.

Some of the many reasons why births should be recorded:

To prove legitimacy.

To establish identity.

To prove nationality.

To show when a child has the right to enter school.

To show when a child has the right to seek employment under the Child Labor Law.

To show when a child has the right to apply for a license to operate a motor vehicle.

To establish the right to inheritance to property.

To establish liability to military duty as well as exemption therefrom.

To establish the right to hold public office.

To qualify to hold title to, and to buy and sell real estate.

To prove the age at which the marriage contract may be entered into.

To make possible statistical studies of health conditions.

As required by Chapter 46, Section 15, General Laws of Massachusetts notice is hereby given that the Town Clerk will furnish blanks for returns of births to parents, householders, physicians and registered hospitals' officers applying therefor.

The following licenses were granted through this office:

Auctioneers License	2
Amusement	1
Billiard and Pool	3
Bowling Alleys	2
Hawkers and Pedlers	4
Innholders	5
Junk Collector's	3
Motor Vehicle Junk Class 3	2
Motor Vehicle New and Second Class 1	4
Victualer's	23
Alcoholic Liquors and Wines and Malt Beverages	26
Dogs	303
Hunting	125
Fishing	35
Sporting	35
Citizen Trapping	1
Citizen Minor Trapping	12

Non-Resident Hunting	1
Duplicate	3
Lobster -- Crab	7
Minor Fishing	12
Resident Citizen Minor and Female Fishing	6

For the benefit of the owners and keepers of dogs, the following extract of the General Laws is hereby submitted:

General Laws, Chapter 140, Sections 136A-175

Ammended by Ch. 289 of 1932 and Ch. 320 of 1934

SECTION 137. Licenses and Tags. The owner or keeper of a dog which is three months old or over shall annually, on or before March thirty-first, cause it be registered, numbered, described and licensed for one year from April first following, if the dog is kept in Boston in the office of the police commissioner, or if kept in any other town in the office of the clerk thereof. The license shall be in a form prescribed by the director, upon a blank to be furnished, except in the county of Suffolk, by the county in which the town is located, and shall be subject to the condition expressed therein that the dog which is the subject of the license shall be controlled and restrained from killing, chasing or harassing live stock or fowls. The owner or keeper of a licensed dog shall cause it to wear around its neck or body a collar or harness of leather or other suitable material to which shall be securely attached a tag in a form prescribed by the director, and upon which shall appear the license number, the name of the Town issuing such license and the year of issue. Such tags shall be furnished in the same manner as the license blanks, and if any such tag shall be lost the owner or keeper of such dog shall forthwith secure a substitute tag from the town clerk, at a cost of ten cents which shall be retained by the clerk unless otherwise provided by law. Any person may bring or cause to be brought from another state or country any dog licensed under the laws thereof and keep such dog in this commonwealth for a period not exceeding thirty days without licensing it hereunder, and during such period the foregoing provisions of this section not apply to such dog.

SECTION 138. Licenses. The owner or keeper of a dog may at any time have it licensed until April first following; and a person who after April first becomes the owner or keeper of a dog which becomes three months old after March thirty-first in any year, shall, when it is three months old, cause it to be registered, numbered, described, licensed, collared or harnessed and tagged as required by section one hundred and thirty-seven.

Respectfully submitted,

EDWARD S. COGSWELL,

Town Clerk.

REPORT OF POLICE DEPARTMENT

To the Honorable Board of Selectmen:

Gentlemen:

I have the honor to submit to you the report of the duties performed by the Police Department of Ipswich for the year ending December 31, 1935.

Total number of arrests:

January	39	
February	17	
March	20	
April	27	
May	80	
June	28	
July	33

Pistols	8
Riot Gun	1
Gas Gun	1
Gas Club	1
Searchlight	1
Dragiron Sets	1

Respectfully submitted,

WILLIAM E. GARRETT,

Chief of Police.

REPORT OF MOTH SUPERINTENDENT

To the Board of Selectmen:

I herewith submit my annual report as Superintendent of the Moth Department.

The work in this Department has been carried on in practically the same manner as in former years which consists mainly of suppressing the Gypsy and Browntail moths. The Gypsy moth is controlled by applying creosote to the egg clusters in the winter months and by spraying in the spring. The Browntail moth is controlled by cutting the webs during the winter months and, likewise, by spraying in the spring.

Fortunately no serious outbreaks of these insect pests occurred in Ipswich during 1935.

This past season however, the spring canker worm was most abundant, and did considerable damage on many of our elms and maples, which in some instances were nearly defoliated. Another spring an extra early application of spray material should check this pest in its early stages.

The elm leaf beetle was very nearly extinct in Ipswich this past summer. One or two light infestations were found with very little injury done.

This year the Eastern Tent Caterpillar was particularly destructive along the roadsides and throughout many small orchards and woodlands wherever apple and wild cherry trees grew. Scientists tell us that the year 1935¹ was the culmination of the ten year period of infestation, and that next year we may look for a lighter infestation. It is believed that most insects work in cycles, gradually increasing their numbers from year to year up to a certain point.

During the winter and spring of 1935 44 men with 4 foremen were employed in this department examining the woodlands for the Gypsy and Browntail moths. Large territories of woodland were inspected with very satisfactory results.

These men were employed through Mr. Brainard C. Wallace, local E.R.A. administrator.

Respectfully submitted

C. GARDNER CAVERLY,

Local Moth Superintendent.

REPORT OF TREE WARDEN

To the Citizens of Ipswich:

I hereby submit my second annual report as Tree Warden.

During the past year our shade trees have received as much attention as possible. It has been necessary to work sparingly on them in order to keep within the budget. As a result, only such work could be done as was considered absolutely necessary.

Four trees were removed from within the highway this year. Three of these were Lindens, standing on Manning Street, while the fourth, a red oak, was removed on Linebrook Road.

The three trees on Manning Street have been dying

for several years, probably as a result of modern methods of road and sidewalk construction, and the close proximity of gas mains. Four Norway maples were planted in place of these trees although it was considered advisable to make arrangements for two of these to be planted on private property, where they will serve the public as shade trees practically as well as if they were planted within the limits of the highway.

Six young elms were planted on North Main Street and I would like to take this opportunity of publicly expressing my appreciation to Mr. and Mrs. Joseph W. Ross for contributing them to the citizens of Ipswich. It is hoped these young seedlings will survive the rigors and hardships our trees are subjected to under present day conditions.

Of course, the usual routine of this department has been carried on as far as possible. This work consists of removing dead and diseased branches, cable work, and removing such limbs as may endanger traffic.

Last winter, through the co-operation of the E.R.A. administrator, Mr. Brainard C. Wallace, eleven men and a foreman were employed in this department in the rural sections of the town, pruning dead wood and low hanging limbs from the trees along the highway. This project was a very beneficial one.

Dutch Elm Disease. Massachusetts is still free of this much dreaded disease, which has taken many fine old elms throughout the eastern part of the country.

Although a few trees in Connecticut have succumbed to the disease, it is still confined in the vicinity of Old Lyme where it originally appeared.

Respectfully submitted,

C. GARDNER CAVERLY,

Tree Warden.

REPORT OF PARK COMMISSIONERS

To the Citizens of Ipswich:

The Board of Park Commissioners herewith submit their annual report:

During the past year the usual maintenance work of this department has been carried on, which consists mainly of keeping the various grass plots throughout the town as neat as possible through the summer months.

Giles Firmin Garden: The tulip bed which was added to these grounds last year was considered an improvement worth permanent consideration by several people.

North and South Greens: Tulips have been planted as usual in the circular beds on these plots. It has been suggested that a change should be made in the arrangement of the tulip beds on the parks. It is true that the present arrangement is not particularly in harmony with modern ideas of landscape development but for the present we feel that the beds should remain undisturbed.

Considerable damage has been caused by children playing on the North and South greens. And while the commissioners fully realize that children should have access to public playgrounds, we ask their parents to cooperate with us by instructing them to play on the baseball diamonds, which are of sufficient size to accommodate them.

Arthur Dow Park: Considerable brush cutting was done here this fall. Each year some of the undesirable growth should be removed in order that the more desirable varieties of trees and shrubs may have a chance. The ground surrounding the memorial boulder was seeded to grass last fall, and this spring a small planting of bayberries and junipers will be made around this site.

Last year a generous application of fertilizer was applied to park areas with very good results, and we recommend the same practice this year.

Respectfully submitted,

C. GARDNER CAVERLY,
SAMUEL C. GORDON,
HENRY S. BROWN,

Park Commissioners.

REPORT OF FOREST WARDEN

Ipswich, Mass., January 27, 1936.

Board of Selectmen:

Gentlemen:

The following is the report of the Forest Warden for the year 1935:

Number of woods, grass and brush fires	63
Number of acres burned	45
Damage on same	\$50.00

Supplies on hand:

- 3 dozen brooms
- 12 pump cans

This year I recommend an appropriation of \$300.00.

There has been a great increase in the number of grass and brush fires during the fall due to the unusual dry spell.

We wish to take this opportunity to thank the Topsfield and Rowley Fire Departments and all other persons who aided us in extinguishing fires.

Respectfully submitted,

GEORGE W. BROWN,

Forest Warden.

REPORT OF THE SUPERINTENDENT OF STREETS

Ipswich, Massachusetts.

To the Honorable Board of Selectmen:

Gentlemen:

I submit herewith the annual report of the Highway Department for the year ending December 31, 1935. With the regular maintenance work of the Department there has been 22,955 gallons of tar and asphalt applied to the streets, covering about 91,820 square yards.

On the Chapter 90 roads, Linebrook Road and Topsfield Road, for which we have received financial aid from the state and county, a big improvement was accomplished by the work done on them. A coat of pea stone was applied to Linebrook Road covering about 42,240 square yards, the cost being about twelve (12) cents per square yard. On the Topsfield Road a two-inch layer of stone was applied for fifteen hundred feet from the Topsfield line towards the Town, covering about 3,000 square yards at a cost of about forty-five (45) cents a square yard. Several sections were graveled and tar was applied where needed. The section where the two inches of stone was applied has worked out very satisfactory and I would advise laying out a program to do this type of work on more of our local streets that we might cut down the maintenance cost.

Tabulation of Time Equipment Worked

	Miles	Hours	Gals. Gas	Qts. Oil

	<hr/>	\$15,789.00

Respectfully submitted,

FRANCIS E. WOOD,

Supt. of Highways.

REPORT OF FIRE ENGINEERS

To the Board of Selectmen:

Gentlemen:

The following is the report of the Engineers of the Fire Department for the year 1935.

There were:

- 39 Bell Alarms
- 108 Still Alarms
- 147 Total Alarms

Including:

- 21 Chimney Fires
- 11 Automobile Fires
- 63 Brush and Grass Fires
- 12 Buildings
- 7 Oil Burners
- 7 Dump Fires
- 5 False Alarms
- 21 Miscellaneous

There were:

- 11,760 feet of 2½ inch hose laid
- 1,270 feet of 1½ inch hose laid
- 190 gallons of chemical used
- 55 water cans
- 2,475 gallons of water from Booster Tank
- 811 feet of ladders used.

Engine 1 made 33 runs, covered 101 miles and pumped 6½ hours.

Engine 2 made 51 runs, covered 65.2 miles.

Engine 3 made 19 runs, covered 19 miles.

Engine 4 made 41 runs, covered 162.8 miles.

Ladder 1 made 47 runs, covered 61.6 miles.

At the present time the apparatus in use is:

Ladder 1 Sanford Combination Booster and
Ladder Truck.

Engine 2 Seagrave Pumper, 1,000 gal. cap.

Engine 3 White Comb. Hose & Chemical.

Engine 1 White Pumper, 500 gal. capacity.

and all are in first class condition.

The property loss by fire for the year	\$10,083.13
Insurance paid	4,032.28

The insurance companies have not at this time adjusted the loss on three fires.

We recommend the purchase of hose this year.

We are pleased to report a comparatively small loss by fire for the year 1935, a total loss of \$10,083. and included a loss of \$5,000. at the time that the Grape Island Hotel was destroyed, which was entirely out of reach of the Fire Department and a summer camp at Great Neck with contents was entirely destroyed, as compared with a previous fire year average of \$38,054.

Engine 4 which was the rebuilt G. M. C. and used for forest fires and other light work, went out of commission because of constant motor trouble. We feel that it is poor judgment to spend any more money to keep it going.

The motor of Engine 1, the White pumper, purchased in 1920 has had a thorough overhauling, which means that at this time it is in first class condition. We also have had the machine painted during the last month, and now it looks as good as new. It is good for some years yet for looks and service. The other pieces of apparatus are also in first class condition.

At present there is a P.W.A. project going on at the Station. Workmen are employed making the room formerly used as a hay loft into a finished room.

The large doors in the apparatus room will soon have to be replaced, and we recommend overhead doors.

The School Committee, according to the vote of the Town meeting last March, have installed an automatic sprinkler and sprinkler alarm system in the Central group of school buildings, the Winthrop and Manning High, at a cost of approximately \$5,000. This is known as a dry system, the water being held back of a valve in the basement by air pressure, and released when the temperature rises in any part of the building high enough to melt a sprinkler head. When this happens it automatically sounds an alarm by sounding a bell in the Principle's office, another one on the outside of the building, and also trips the fire alarm box on the street, thereby sounding the alarm to the firemen through Box 24 of the municipal fire alarm system. This installation will prevent any serious loss by fire, and the school authorities, teachers and parents should experience a feeling of satisfaction that the best possible protection has been purchased for the protection of the occupants of the buildings. According to records there has never been, in this county, a loss of life by fire in any public building protected by a sprinkler.

Not only do we receive this protection, but the fact that we have it reduces the amount of money that the Town pays out every year for Fire Insurance \$625.92, which in itself is quite an item. The new rate went into effect September 1, 1935, after the completion of the job, and a thorough inspection by a representative of the New England Insurance Exchange.

It will be seen that the amount of money the Town saves on insurance in eight years will pay for the installation of the system.

We think that all our public buildings should be protected in this way, especially the Burley and Shatswell Schools, and the Town Hall and Memorial buildings as with that protection the possibility of a serious fire is removed, and the safety of the occupants at any time a fire might start would be assured. These buildings and the new High School represent a large investment of public funds, and they should be protected against loss by fire in

the best possible way, and it would mean a greatly reduced cost of insurance.

We recommend this year that the Burley School be protected in this way.

This is real Fire Prevention.

Respectfully submitted,

EDWARD H. SMITH,

SAMUEL W. ATHERLEY,

LIONEL SHEPPARD,

Board of Fire Engineers.

REPORT OF THE CLAM COMMISSIONERS

To the Board of Selectmen:

The Clam Commissioners wish to submit the following report:

We are pleased to report that the clam flats of the town are in perhaps as good if not the best condition in the history of the town. Practically every flat is full of clams that in most cases are growing fast. The last year probably saw more work put into protecting and improving the flats than in any other year in the history of the industry. Much credit is due the Special Committee appointed at the Annual Town Meeting for its interest and practical help in getting the importance of the clamming industry before the town in its proper light and securing an adequate appropriation. Because of this generous appropriation we were able to do a lot of much needed work.

We had a larger area than usual closed for winter clamming and though successful was not entirely satisfactory on account of many of the clams being still too small. We recommend closing the same area this year.

We have had two E.R.A. projects this year on transplanting clams from overcrowded areas into flats that never had clams in them before. We are pleased to state that the projects were very successful.

We also had a W.P.A. project on transplanting clams and removing their natural enemies. This consists in removing mussels from the flats and destroying them. This is one of the most important jobs that has ever been done to protect the flats.

Violations of the rules and regulations were very few this year. We wish to thank the clammers for their fine co-operation for we must admit the temptation was at times very great.

We also wish to thank the Board of Selectmen for the way in which they have interested themselves in the clam

industry and say that at no time have the Clam Commissioners asked for anything that it has not been granted.

We also wish to thank the Police Department and the Judge and court officers for their help in enforcing the clam regulations. Ipswich is on the eve of the greatest boom the clam industry has probably ever known. The markets are coming back and in 1936 Ipswich should resume its place as the leading clam town. We hope that the interest shown by the citizens of the town in the last year will continue that we may make permanent the conditions on our flats that exist today. There is no reason why our clamming industry should not be the most important activity of the town.

There were 300 permits issued for 1935, about 250 were regular clammers and the balance transient diggers.

Due to the help we received from E.R.A. and P.W.A. projects we were able to turn back to the town part of our appropriation.

We also have on hand two dories and a supply of tools which will be used in our work this year.

We recommend that a fee, to be decided at the Annual Meeting be assessed on all permits issued in 1936.

We ask a liberal sum be appropriated this year for the care of the flats. This will be largely returned by any fee that is imposed.

The Commissioners recommend that some action be taken towards cleaning out the old canal between Fox Creek and Essex River. There are a lot of clams on and around Ipswich Beach and they would be available for summer digging if this was done, so that boats could go down. As it is now they can only be reached by going around outside or from Essex. If clammers from Ipswich do not get them they will be dug by clammers from other towns. Clammers would not be the only ones that would use it.

HENRY SHAW, chairman,
HENRY S. BOWAN,
THOMAS R. ROBERTS,
Clam Commissioners.

LIST OF JURORS

Atherly, Samuel W., 18 Fruit Street	Salesman
Arthur, Charles M., Turner Hill	Superintendent
Brown, Walter G., 109 High Street	Gardener
Bayley, Samuel S., 28 Water Street	Fisherman

ASSESSORS' REPORT

In making this, the annual report of the Board of Assessors, there has been included the work sheet that is used in computing the tax rate, and tables of aggregates covering the work of this Department.

The Board in making up the estimated receipts, this as in previous years, was careful to use a conservative amount from all sources of revenue by checking up with the Town Accountant all amounts received up to time of making rate and estimating for the balance of the year. The amount received being in excess of the amount estimated so a true tax rate.

The total appropriations were about \$21,000.00 more than the previous year, and valuations about \$14,000.00 less, but with available funds amounting to \$33,000.00 we were able to make a rate of \$42.90, an increase of sixty five cents over last year.

Respectfully submitted,

C. CHESTER CALDWELL,

JOHN E. NORMAN,

WORTHINGTON H. MANSFIELD,

Assessors of Ipswich.

REPORT OF SEALER OF WEIGHTS AND MEASURES

To the Honorable Board of Selectmen:
Gentlemen:

I have the honor to submit to you the report of the Department of Weights and Measures for the year ending December 31, 1935.

Platform Scales over 5000 pounds sealed	4
Platform Scales under 5000 pounds sealed	19
Condemned	1
Counter Scales under 100 pounds sealed	21
Beam Scales under 100 pounds sealed	2
Beam Scales over 100 pounds sealed	1
Spring Scales over 100 pounds sealed	5
Spring Scales under 100 pounds sealed	35

WILLIAM A. STONE,

Sealer of Weights and Measures.

MILK INSPECTOR'S REPORT FOR YEAR 1935

January 20, 1936.

To the Board of Health,

Gentlemen :

I herewith respectfully submit the following report for the year ending December 31, 1935.

Number of licenses issued for sale of ice cream	36
Number of licenses issued for sale of oleomargarine	6
Number of licenses issued to milk dealers	54
Number of samples of milk tested for butter fat	127
Number of samples of milk tested for bacteria	63
Number of samples of milk tested for sediment	85
Number of times Pasteurizing Plants inspected	54

Respectfully submitted,

EBEN B. MOULTON,

Milk Inspector.

SANITARY AGENTS REPORT

January 20, 1936.

To the Board of Health,

Gentlemen:

I herewith respectfully submit the following report
for the nine months ending December 31, 1935.

Complaints received and investigated	90
Contageous disease cards posted	16
Cesspool and Vault licenses issued	2
Tallow and Soap Grease licenses issued	4
Pasteurizing licenses issued	3
Milk Producers permits issued	33
Dairy's inspected	25

Respectfully submitted,

EBEN B. MOULTON,

Agent, Board of Health.

LIST OF TOWN PROPERTY

School Buildings	\$249,100.00
Public Buildings	161,750.00

REPORT OF THE BOARD OF HEALTH

To the Citizens of Ipswich :

Following is a list of contagious diseases reported to the board during the past year:

Anterior Poliomyelitis	5
Chicken Pox	8
Dog Bite	8
German Measles	15
Scarlet Fever	44
Pulmonary Tuberculosis	4
Other Forms	1
Venereal Diseases	1
Measles	2

The care of cases referred to the sanitarium at Middleton and cases with residences in Ipswich but now living outside the town has resulted in unusual expense this year. This expense is, of course unavoidable and varies considerably from year to year.

Fewer complaints concerning garbage removal than ever before were received by the Board. Our experience shows that to have this work properly done, a sufficient sum must be spent to make it worth while for the person obtaining the contract.

The child welfare work this year was carried out without the use of clinics and consisted of personal calls on children of pre-school age by the physician in charge. Clinics have been found unsatisfactory because inclement weather results in poor attendance especially in the case of infants and very young children. The work next year will be carried on by the school nurse who will make regular reports to the board.

The board is heartily in favor of regular ash and rubbish removal and hopes that some action will be taken by the town to establish such a collection.

Much has been done by the state health department with fine co-operation of the local school department in their work of dyptheria prevention. The result is clearly shown in the record of this department in regard to this dread disease.

CHARLES T. AMES, M.D.,
JOSEPH SALTZBERG.

BOARD OF HEALTH — MINORITY REPORT

To the Citizens of Ipswich:

As I have not been wholly in accord with the present board during the past year, I feel it my duty in fairness to you and myself, to submit the following.

Soon after the organization of the Board, we had the misfortune of losing our devoted Chairman the late Doctor George MacArthur, who was known and respected for his earnest efforts in carrying out the duties of his office.

With a vacancy in the Board a joint meeting of the Board of Selectmen and Board of Health, was called on April 18, 1935, for the purpose of filling that vacancy at which time Mr. Saltzberg was appointed by a vote of 3-2. I opposed his appointment as only five weeks previously he had been defeated by a popular vote.

On Saturday, April 20, 1935, a special meeting was called for the purpose of organizing. I declined to attend that meeting, as I had previously stated my reasons to the clerk and the now present Chairman. I wish to state here, it was the only meeting that I did not attend during the past year. At this meeting, Dr. Ames was appointed Chairman and also Director of Child Hygiene.

On August 7, 1935, I opposed any further payments to the Director of Child Hygiene; my reasons being that I felt nothing had been accomplished since the appointment to this office.

There has been much comment and criticism circulated about town to the amount of money received by the Inspector of Slaughter. At the March meeting, (March 20, 1935) at which time this appointment was made, I suggested that he should receive a certain amount for each inspection, instead of a flat yearly salary, but this did not receive the approval of the other members. This office cannot be abolished as it is a State requirement.

I have also opposed payments on different contagious cases, during the past year. The reasons for my opposing

these bills were that it is my belief that intimate members of certain families could have been responsible for their payments.

We were fortunate in having very little communicable diseases during the past year. Scarlet Fever was the most prominent, but no deaths resulted. During the week of March 11, 1935, the Schools were closed in an effort to check the spread of that disease, which purpose it accomplished.

A very successful Diptheria Clinic was held during the month of December, and I wish to extend my appreciation to the school authorities for their splendid co-operation. I hope the parents will continue to take advantage of these Clinics which have proven so successful through the State.

At the present time we are now having a Health Survey sponsored by the United States Treasury Department, as a W.P.A. project, and I hope the town's people will respond gratefully to this, because the information gained is expected to uplife the health condition of our town.

I submit the following recommendations that:

1. The garbage contract shall include the collection of such at Eagle Hill, Indian Springs, and Great Neck, twice weekly from the last week in May through the second week in September. This to be a house to house collection in preference to the present system.
2. Your consideration be given to the article in the warrant pertaining to the Rubbish Removal.
3. Unless some benefits are to be gained through the Director of Child Hygiene that position be abolished.
4. The Inspector of Slaughter shall receive the amount of \$3.50 for each inspection made by him.
5. All health rules and regulations be strictly enforced.
6. Last but not least the Board be run on a sound business like basis.

I wish to express my sincere appreciation to all those who have helped me in the performance of my duty, during the past year.

Respectfully submitted,

PAUL M. JODOIN

WELFARE REPORT

To the Citizens of Ipswich:

We are pleased to report that our expenditures of \$44,079.11 is \$3,463.92 less than that in 1934, and that we are returning \$2,084.88 to the town.

There have been more cases handled this year but at less cost. The change from E.R.A. to W.P.A. has been instrumental in causing a part of this increased number of cases. New rules and regulations were set up with much detail required and the process of assignment was slow because of the gigantic task throughout the state. Payments alike were affected and at one time the workers were five weeks without pay, some even six.

Several new cases came on because of decreased income and the utter impossibility of obtaining employment. Old age cases increased while Mother's aid cases remained fairly constant. Out of town cases vary from year to year through the loss of settlement and new aid given. Much work is entailed in Hospital cases. Notice of entry is sent to the welfare department and here it is investigated as to settlement and responsibility. Notices are forwarded to cities and towns and state within 5 days, thereby necessitating a great deal of time and labor in getting together proper information.

The outlook for 1936 does not seem very promising. things "may" be better, but Ipswich hasn't much to offer to better things with. The factories located in town can take only a portion of our burden and they are doing so as they can, co-operating whenever possible. We have W.P.A. and P.W.A. these are only makeshifts, not legitimate industry like staple factories, and how long these are going to last is a question at the present time. In conjunction with the above mentioned agencies, W.F.A. and P.W.A., would note that they cannot care for the entire case load because of the period of eligibility which is, from May 1st. to and including Oct. 31st., 1935. This statement may explain the difficulty in obtaining employment.

Mention should be made of the Federal Commissary in conjunction with the Welfare Relief. Many articles of food and clothing have been handled through this outlet and it is our opinion that there should be no suffering whatsoever for want of either of them for a substantial supply has been given to those eligible to receive it.

We wish to extend our thanks to:

Brainard C. Wallace, Administrator for his cooperation at all time, the Highway, Electric Light, Water and Educational departments for employing our cases whenever opportunity presented itself. Cases receiving aid have in good part worked it out with the various town departments.

The Infirmary is still being maintained under the supervision of George and Maude Dorr. We have served 25 cases there during the year with a yearly average of 9.

The receipts from the farm reached a higher mark this year than for several years.

We wish to thank Mr. and Mrs. Dorr for their cooperation at all times and for the fine condition in which things are kept.

Respectfully submitted,

CHARLES V. HILLS,
WALTER F. POOLE,
BESSIE F. DAWSON.

**REPORT OF
INSPECTOR OF SLAUGHTERING**

Board of Health,
Ipswich, Mass.,
Gentlemen:

I herewith submit my report for the year ending December, 31, 1935.

Since my appointment in April, 1935, I have inspected several slaughter houses from which the Beef and Pork Products are sold into Ipswich.

There have been 17 hogs slaughtered from Ipswich during my term.

Respectfully submitted,

HILMER H. LINDGREN.

REPORT OF TRUSTEES OF MEMORIAL HALL

A detailed statement of the receipts and payments for the year 1935 for Memorial Hall will be found elsewhere in this report. We give a brief summary as follows

Receipts

Appropriation for 1935 expenses	\$2,291.88
Transfer from Reserve Fund	15.85
Rent from American Legion Auxiliary	120.00
Rent from W. R. C.	120.00

Total appropriation and receipts	\$2,547.73
----------------------------------	------------

Expended

Bills paid for 1935	\$2,305.69
Less amount received for rent	240.00

\$2,065.69

Less unexpended balance	2.12
-------------------------	------

Net expense to Town for 1935	\$2,063.57
------------------------------	------------

The expenditures have been somewhat larger this year than in previous years. This was caused by the fact that up to this year the insurance on the building was paid annually. Commencing in 1935 the insurance was all paid for on three-yr policies. By so doing an ultimate saving will come to the town on account of a saving on a three-year policy over a one-year policy.

Some repairs will be necessary this year, principally on the steps leading from the street to the building. The surface of these steps is crumbling and it is probable they will all have to be re-surfaced. There are also two or three small sections on the roof where new slates will have to be put on.

We again express our appreciation of the good work done at the building and the care taken of the same by the janitor.

Respectfully submitted,
 HARLAN BURKE,
 RALPH C. WHIPPLE,
 JAMES M. MacINNIS,
 WALTER E. HAYWARD,
 OSCAR H. EWING,
 GEORGE A. SCHOFIELD,
 Trustees.

Ipswich, Mass., Feb. 10, 1936.

REPORT OF TRUST FUND COMMISSIONERS

To the Citizens of Ipswich:

We submit the following report of the funds which are under our supervision as Trust Fund Commissioners.

EUNICE CALDWELL COWLES FUND

Amount of fund Jan. 1, 1935	\$10,057.90
Interest received to Jan. 1, 1936	339.44
Total	<hr/> \$10,397.34
Cash paid for scholarships in 1935	350.00
Total fund to Jan. 1, 1936	<hr/> \$10,047.34
Securities Comprising Fund	
Deposit in Salem Savings Bank	\$ 5,043.35
Deposit in Inst. for Savings, Newburyport	5,003.99
Total	<hr/> \$10,047.34

MARIANNA T. JONES FUND

Amount of fund Jan. 1, 1935—cash	\$24,322.39
Interest received to Jan. 1, 1936	592.51
Refund from 1934 High School appropriation	2,280.00
Total	<hr/> \$27,194.90
Securities Comprising Fund	
Deposited in Ipswich Savings Bank	\$27,194.90
MARTHA I. SAVARY FUND	
Amount of fund Jan. 1, 1935	\$ 264.20
Income from interest to Jan. 1, 1936	9.31
Total deposit in Ipswich Savings Bank	<hr/> \$ 273.51

During the year 1935 the sum of \$350.00 for scholarships was the only money paid from the Cowles Fund.

No payments were made from the Savary Fund and none from the Jones Fund.

During the year 1935, \$2,280.00 was returned to the Jones Fund from the Special Schoolhouse Committee, it being the unused balance of the appropriation of \$5,000.00 made from the Fund to the Committee in 1934. The Town has now voted to transfer from Jones Fund \$25,000.00 towards the cost of the new High School building, but this amount had not been withdrawn from the Fund before January 1, 1936.

Respectfully submitted,

GEORGE A. SCHOFIELD,

CHARLES M. KELLY,

CHARLES E. GOODHUE,

Trust Fund Commissioners.

Ipswich, Mass., February 10, 1936.

REPORT OF PLAYGROUND COMMITTEE

To the Board of Selectment:

The Playground Committee submit the following report.

The usual routine has been followed at the Linebrook Playground. One man has been on duty during the summer with an extra man at the first of the season.

Through an E.R.A. project the grounds have been leveled off and graded.

A drain has been put in near the home plate to correct the wet condition there and we hope to do more in this line.

A new permanent backstop and fence in front of the bleachers was erected through a Federal project, and is a great improvement to the grounds.

A new chute and some new swings were purchased and installed.

This year a new cover must be placed on the cesspool as it is in a dangerous condition. We have also got to have a new home plate and slab for the pitcher's box.

We have had many favorable comments on the condition of the playground last summer and we feel that it will compare favorably with those of and of the surrounding towns, and the people may take just pride in owning such a recreation spot.

JOSEPH THOMAS, Chairman,
EARL M. EWING, Secretary,
CHARLES MARCEAU
FRANCIS CAREY,
HENRY S. BOWEN.

IPSWICH BEACH COMMITTEE REPORT

To the Citizens of Ipswich:

Acting under the general authority given by the town meeting and in conjunction with the owners of the Crane land, your Committee has continued during the year 1935 to carry on the work begun in 1934 at Ipswich Beach. The arrangements made by your Committee with the owners of the Crane estate were fully set forth in a lengthy report in the 1934 town report and have received the approval of the voters at town meeting. It is sufficient to say now that your Committee has proceeded along the lines outlined in that report to develop the Beach and provide parking space and roadways to the Beach to the end that a larger number of people may have the opportunity of enjoying bathing and beaching under the proper conditions. Your Committee feels that a long step in advance was taken in 1934 along that line and a still longer step in advance followed in 1935.

By reason of the courtesy of the owners of the Crane property we were given the opportunity of preparing and using a large area of their land for additional parking space. The parking space provided in 1934 was found to be inadequate and in 1935 an enlarged space, where approximately six hundred cars may be parked, has been very largely developed and a roadway constructed to it.

In addition to that, new board walks have been laid which make it very much easier to gain access to the Beach front. Bath houses and toilet buildings have also been constructed. We have also erected buildings to be used in connection with supplying food for those who go to the Beach and these buildings have been let for the season to private individuals.

Another thing which has been a distinct advantage is that we have been able to bore wells at the Beach and find a plentiful supply of water.

In all, ten projects have been undertaken as follows:

Board walk No. 1, cost	\$ 72.07
Bath houses and toilets	323.44

Driving wells	53.88
Erecting 2 store buildings	487.66
Board walk No. 2	194.82
Erecting building at parking space	264.88
Building road to parking space	795.38
Painting buildings	93.99
Grading and building new parking space, cost	1,250.50
Taking up old board walk	48.00

The total cost of above projects was \$3,584.62.

In addition to that, we have provided and paid for police service and agents to collect parking fees a total of \$1,058.00. Other incidental expenses, as shown in the Treasurer's report, bring the total cost for the season up to \$4,968.66.

The following is the report of the Treasurer of the Committee for the entire year.

To the Officers and Members of the
Ipswich Beach Committee,
Gentlemen:

I submit the following report of the receipts and expenditures of the Beach Committee for the season of 1935.

Total receipts for season of 1935	\$4,601.75	
Balance on hand, Jan. 1, 1935	959.71	
		\$5,561.46
Total receipts from parking	\$4,501.75	
Recd. from Mrs. Mason for concession	50.00	
Recd. from Mr. Morgan for concession	50.00	
		4,601.75
Parking receipts by month,		
April	\$ 34.25	
May	216.00	
June	1,076.50	
July	1,309.50	
August	1,540.25	
September	310.50	
October	14.75	
		\$4,501.75

Deposited in First Nat. Bank 1935	\$4,520.60	
Cash paid out 1935	81.15	
	<hr/>	\$4,601.75
Paid out by check 1935	\$4,887.51	
Paid out by cash 1935	81.15	
	<hr/>	\$4,968.66
Expense for 1935 as follows,		
Police	\$1,058.00	
Labor	2,116.18	
Trucking	773.52	
Legal	94.45	
Insurance	18.84	
Supplies	907.67	
	<hr/>	\$4,968.66
<hr/>		
Summary:—		
Bal. in First Nat. Bank Jan. 1, 1935	\$ 959.71	
Cash received from sale of tags	4,501.75	
Cash received from concessions	100.00	
	<hr/>	\$5,561.46
Total amount paid out for the season of 1935		\$4,968.66
		<hr/>
Bal. on hand Jan. 1, 1936 in First Nat. Bank		\$592.80

Respectfully submitted,

WILLIAM E. GARRETTE, Treas.

This year, as last, we have left the matter of management, development and policing at the Beach in the hands of our Treasurer, as the active member of the Committee in charge. We feel that he has been efficient, painstaking and has at all times labored to make the undertaking a success. It was our opinion that as Chief of Police he would be far more effective in handling the situation at the Beach than any private citizen would have been and we feel we have been justified in that opinion. If we may judge by the comments made, not only by the citizens of Ipswich but by a large number of people from the surrounding country who have visited Ipswich Beach during the past two years, we cannot help feeling that practically the universal opinion is that he has done a fine piece of work. Of course, there is a lot yet to be done to bring the Beach up to the standard where we would all like to see it but it seems certain

to us that if we proceed along the lines of the last two years we are going to reach that standard in a comparatively short time.

When it is taken into consideration that all this work has been done and all the time and energy spent in connection with the work without one cent being appropriated or taken from the taxes or any other fund of the town, it should be conceded that the appointment of a Committee has justified itself.

It will be remembered that in our last report we spoke of the possibility of doing away with all parking fees from our own citizens and from those who make their summer home with us. It is our hope to put that plan into effect this year. In the past we have only charged our own people for Sundays and holidays but we feel that now we can do away with the charges on those days as well as on week days.

The bills contracted by your Committee have all been paid. Payment has been made by check, each check being signed by the Treasurer and countersigned by the Chairman or Vice-Chairman of the Committee. Itemized accounts, cancelled checks and all papers pertaining to the work of the Committee are in the hands of the Secretary and Treasurer and are open for inspection.

IPSWICH BEACH COMMITTEE,
GEORGE A. SCHOFIELD, Chairman,
ROBERT T. BAMFORD, Vice-Chairman,
CHARLES A. MALLARD, Secretary,
WILLIAM E. GARRETTE, Treasurer,
HARLAND BURKE,
CHARLES E. AMES,
BRAINARD E. WALLACE,
FRANK R. STARKEY.

NOTE:—Roger S. Warner and Joseph F. Claxton, Jr., members of the Committee were unable to be present at the meeting when the report was presented.

PART II.

Water and Light Report

TOWN OF IPSWICH

FORTY-SECOND

ANNUAL REPORT

OF THE

WATER AND MUNICIPAL LIGHTING

COMMISSIONERS

FOR THE YEAR 1935

CHRONICLE PUBLISHING CO., INC.
IPSWICH, MASS.

OFFICERS OF WATER AND LIGHT DEPARTMENT

COMMISSIONERS

CHARLES A. MALLARD, Chairman	Term Expires 1938
J. E. COLE, JR.	Term Expires 1937
BENJAMIN H. DAVIS	Term Expires 1936

TREASURER AND COLLECTOR

JAMES D. REILLY	No. 2 Office, Town Hall
-----------------	-------------------------

DEPARTMENT OFFICERS

Manager of Light & Water Dept.	Charles A. Mallard
Chief Operator Power Plant	Earl D. Hardy
Line Supt. Light Dept.	Gordon Player
Construction Supt., Water Dept.	Stephen Woodman

Office Hours of Light and Water Dept. 9 A. M. to
5 P. M. except Saturdays; Saturday 9 A. M. to 12.00

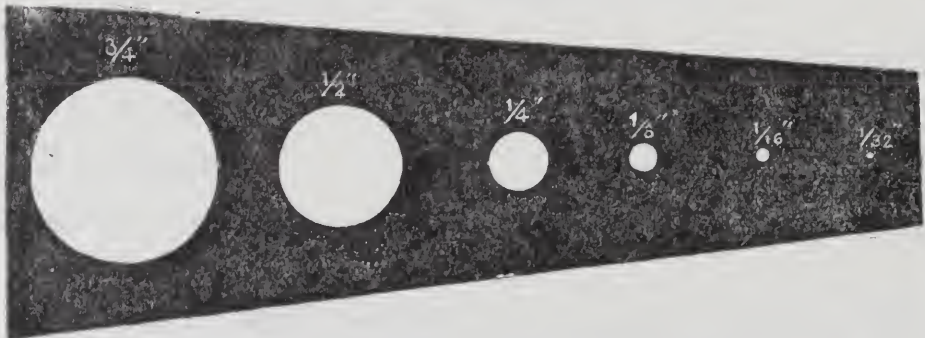

A meeting of the Commission is held each Friday
night at 8 P. M. at the office Room No. 5

CAUTION TO WATER TAKERS

Do not blame your meter

If you have a leaky fixture; have it repaired. If not

	gal. per day	per day
1-2 in. stream consumes	10,800	\$3.40
1-4 in. stream consumes	8,640	2.60
1-8 in. stream consumes	3,240	1.10
1-16 in. stream consumes	1,080	.30
1-32 in. stream consumes	360	.11

The above will show you what a small leak will amount to if allowed to remain unchecked, under our pressure of 70 pounds at Ipswich, Mass.

**FORTY SECOND ANNUAL REPORT OF THE WATER
AND LIGHT COMMISSIONERS FOR THE
YEAR 1935**

To the Citizens of Ipswich :

We respectfully submit the annual report for the
year 1935 as follows:

SUPERINTENDENT'S REPORT

Following is the report of the year ending December 31, 1935.

Main Pipes

The number of feet of mains laid to date and sizes are as follows:

14 inch	1,505
12 "	10,963
10 "	8,830
8 "	24,336
6 "	92,439
4 "	5,573
3 "	9,508
2 "	14,850
1 "	2,320

169,444 feet or 32 miles and 484 feet.

Street Gates

Total now set	188
---------------	-----

Hydrants

Total number now set:

Town	192
Private	16
Total	208

Service Pipes

There has been added 16 services during the year making a total of 1642. There were 15 of the old services renewed during the past year. These services are divided as follows:

Services in regular use	1,351
Summer services	291
	<hr/>
	1642
Service pipes on Town property	29,413 feet
Service pipes on Private property	36,798 feet
	<hr/>
	66,211 feet

These service pipes are either cast iron, lead, galvanized iron or copper and in sizes from $\frac{3}{4}$ -in. to 6-in.

Pumping Record for the Year 1935

Number of hours pumps operated—2,068 hours, 30 minutes.

Number of gallons of water pumped—94,123,530.

Average number of gallons daily—261,454.

Largest day's pumping, Aug. 18—1,170,400 gallons.

Largest month's pumping, August—11,944,400.

Water Main Extensions for the Year

Wild's Court—172 feet 2 inch galv. iron pipe.

Lower East street—5,100 feet 8 inch cast iron pipe.

ELECTRIC LIGHT DEPARTMENT

Summary of the operations for the year and comparison with previous year.

	Year	1934	1935
Total number of domestic consumers		1502	1764
Total number of commercial lighting		202	224
Total number of commercial power		88	94
		<hr/>	<hr/>
		1792	2082
	Year	1934	1935
Total number of K.W.H. generated		2,182,905	2,403,178
Total number of K.W.H. purchased		6,000	0
		<hr/>	<hr/>
		2,188,905	2,403,178
Kilowatts sold:			
Town buildings		32,379	39,304
Water Dept. pumps		110,390	110,500
Street Lighting		225,810	226,350
Station light and power		164,625	169,928
Commercial lighting		160,958	188,236
Commercial power		453,529	608,836
Domestic lighting		744,941	748,780
		<hr/>	<hr/>
		1,898,632	2,091,934
Kilowatts unaccounted for	13 1/4 %	290,273	13 % 311,244
		<hr/>	<hr/>
		2,188,905	2,403,178

From the above figures it is seen that the increase in sales of electricity is about the same as in previous years. It must be remembered however that these increases of from 10 to 12% each year in output is compounded as for example in the year 1925 the total output was 768,339 K.W.H. and in 1935 2,403,178 K.W.H. or a gain in the ten year period of more than 200%.

1935

ELECTRIC RATE, EFFECTIVE JANUARY 1, 1935

Domestic Service

First	25 K.W. hours per month	7c	per K.W. hour
Next	25 K.W. hours per month	4c	per K.W. hour
Next	100 K.W. hours per month	3½c	per K.W. hour
All over	150 K.W. hours per month	3c	per K.W. hour

Discount of 10% on bills paid on or before the 20th of the month. Minimum charge 50c per month.

Commercial Lighting

First	50 K.W. hours per month	7c	per K.W. hour
Next	200 K.W. hours per month	5c	per K.W. hour
All over	250 K.W. hours per month	4½c	per K.W. hour

Discount of 10% on bills paid or before the 20th of the month. Minimum charge 50c per month.

Commercial Power Rate

First	50 K.W. hours per month	6c	per K.W. hour
Next	100 K.W. hours per month	5c	per K.W. hour
Next	300 K.W. hours per month	4c	per K.W. hour
Next	500 K.W. hours per month	3½c	per K.W. hour
Next	1000 K.W. hours per month	3c	per K.W. hour
All over	1950 K.W. hours per month	2½c	per K.W. hour

No discount allowed. Minimum charge \$1.00 per month for each H.P. of connected load.

We are pleased to report an increase in energy output of 11% over the previous year. In conjunction with this you will note a decrease in revenue of \$4,364.03. This decrease in revenue was due to the downward adjustment of rates as of Jan. 1, 1935. In other words the consumers of electricity in Ipswich during the past year used 11% more electricity and at the same time paid 5% less for it.

As the department furnishes street lighting at cost any saving in operating costs reflects itself in a lower appropriation for street lighting. Due to the increase in output and a saving in operating costs we have been able to reduce these costs from \$10,000. in 1934, to \$8,700. in 1935, to \$8,000. in 1936, a reduction of 20% in three years.

We recommend that this sum of \$8,000. be raised and appropriated for street lighting for the year 1936 in accordance with Chap. 269 of the Acts of 1927.

In reference to electric rates a report compiled by the Federal Power Commission shows that of 31 Massachusetts towns from 5,000 to 10,000 population lists the Town of Ipswich as follows:

For 25 K.W.H. use per month 6th

For 100 K.W.H. use per month 5th

For 250 K.W.H. use per month 6th

During the past year there have been no major changes made in the Plant, but during the later part of the year the increased loads put upon the system caused a survey to be made of the outside feeder system. As a result of this survey a plan was made to improve the voltage by placing automatic regulators at different points on the circuits. In December two regulators were put on the main circuit which supplies current to the factories and the business section in the central part of the Town. As more of these regulators are put in oper-

ation the service to not only the factories and stores but to the private residences as well will be materially improved by having constant voltage at all times.

In the Water department during the past year the work of replacing the 4 inch water pipe on Lower East street with 8 inch pipe was completed in conjunction with the Federal E.R.A. We have proposed several other extensions of the water mains as Federal W.P.A. projects and expect that some of these will be accepted during the coming years.

We recommend that a sum of money be appropriated for the current expenses of the Water department, this money to be paid from the receipts of the department.

CHARLES A. MALLARD,

JAMES E. COLE,

BENJAMIN H. DAVIS,

Water and Light Commissioners.

COMMITTEE'S REPORT.

To the Citizens of Ipswich:

Once more it is our pleasant duty to review for you the important events of the past year and to present to you our recommendations for the coming year.

By far the most important was the vote at a Special Town Meeting to build a new high school and appropriate money for the same. This meeting was attended by a fine cross section of the voters. Many real estate holders who pay a substantial sum in taxes were present and when the vote was taken on each article there were only two votes against the proposition. The work of building the school is well under way and should be finished and ready for occupancy when the fall term of 1936 starts.

We are very fortunate to have the old shoe shop at Green Street for use as a Manual Training School, as this year there is an increase of 40 percent in the number of boys who are taking this course. In fact, it seems to be the tendency all over the country for more pupils to forsake the academic subjects for the manual arts. We are now teaching carpentry printing, and mechanical drawing. In Domestic Science we have an increase of 30 percent in the number of girls enrolled.

Transportation of pupils continues to be a large item, the cost to the Town during the past year being almost \$9,000. A bill (Senate Bill No. 282) is now before the Legislature "providing for transportation of Parochial and private school pupils to and from school at public expense." If this bill is passed, it will mean a further increase in costs.

This year the Principal of the High School is adding a course in Biology to the school curriculum. One of the present teaching force will teach the subject, which is of the utmost importance. Most hospitals require a course in this subject before they will allow a girl to go in training.

The subject of fire insurance is a very vital one and the committee is of the opinion that if all the insurance on all Town property could be covered under a Schedule Policy which could be controlled from the Selectmen's office, there would be a saving of many hundreds of dollars annually to the tax payers. We suggest that the Finance Committee take up this matter and make a recommendation.

During the past year there has been an enrollment of approximately 1400 pupils. The cost of educating each has been \$71.79. Among towns the size of Ipswich, we rank No. 137 down the list; No. 1 being the highest cost per pupil. If it is taken into consideration that the Town has had refunds of \$20,120.64, the actual cost to the tax payer is only \$57.41 per pupil.

The Town was not called upon last year to contribute to the support of athletics because the enclosed field had made them "self-supporting."

When the new gymnasium is finished we recommend more sports for the girls, such as basket ball, field hockey, etc. Other high schools do this and we feel that it should be started here even if an extra teacher has to be employed to carry on this work.

In conclusion, we ask more parents to visit the schools and see how the classes are conducted. As we have said in the past, fair criticism of any part of the system is more than welcome.

ERNEST J. SMITH, Chairman.

XIII											1	7	2			10
Total	70	102	100	96	99	133	142	152	174	155	91	65	17	2	2	1400

Americanization Class: 1931-'32, 57; '32-'33, 43; '33-'34, 51; '34-'35, 42; '35-'36, 68.

SUPERINTENDENT'S REPORT.

To the School Committee of Ipswich,

Gentlemen:

The thirty-fourth annual report coming from the office of the Superintendent of Schools is herewith submitted.

Again I am advised to use but little space. This I shall do by simply touching upon a few of our achievements, offering a few recommendations, and making acknowledgment of the helpful service rendered by various organizations and individuals in lifting our schools physically, intellectually, and spiritually to a higher plane.

The usual statistical information may be gathered from the tables which are a part of this report.

ACHIEVEMENTS.

Anything which contributes to the general health of a community is of first importance. And so I place the successful work of our School Physician and the School Nurse in the elimination of diphtheria from our midst as first of our outstanding achievements. Not a single death from this cause, nor a single case of the disease, was reported to the Board of Health for the full year.

This is a pleasing record; but do we stop to consider what it means in terms of security to the home and family? the lifting the load of anxiety from the fathers and mothers of these little ones? And what about a community that is so immune?

The work of the Industrial Arts School deserves a place under this caption. In addition to the quota from the High

School taking this work, there has been a class of over-aged boys who have taken manual training along with their academic work. The change has given them new courage and I rank these boys as responsive and dependable as any class or group in our school population. The teachers in charge, coupled with the merits of the system, have done a real work in transformation. Teaching our boys and girls to work with their hands helps to defeat poverty.

The juvenile play lately presented by the pupils of the Burley School deserves a place among our highlights. It was an ambitious undertaking; but the Supervisor, the teachers, and the children rose to the occasion and carried through without a hitch or a break. It was one of the finest examples of good leadership and thorough training I ever witnessed.

The spirit of Martha J. Stuart still walks abroad. The heritage she bequeathed our schools is a noble one. The seed she sowed here fell into good ground and is bearing fruit an hundred fold.

At the risk of revealing my own personal leanings in educational matters, let me say that the things of the spirit should come first. Nothing gives me a deeper satisfaction, nor so assures me of the correctness of my course, as to realize what our schools are constantly doing in the line of social and spiritual uplift. Our children are taught by precept and example to put service above self, to live neighborly, and enjoy the luxury of doing good. I could fill a book with concrete examples of this work, but space forbids; and then, too, we must not do as the hypocrites do.

RECOMMENDATIONS.

I unreservedly recommend the return to the old schedule for the admission of children to our public schools. viz: 5 years of age on or before December 31 of the entering year.

I have no desire to enter into any extended discussion of this proposition. I simply wish to say to those holding opposite

views, that there are honest differences of opinion, that we often confuse the means for the end. In this case, I am most certain, the end sought—the real objective—is one and the same; it is identical. The difference lies in the means employed to achieve that end. But let us go to the real facts of the case before drawing any conclusions or offering any remedies. Here are a few facts that all must recognize as such:

We have a mill town without the mill. Many of our homes have large families of children. Many of these parents, rather than turn their children into the jungle of the streets, are sending them to the parochial schools. I heartily approve of such policy; but is the public school doing its full duty when a better way is possible?

Again, and without exception, those children who have attended kindergarten before entering the public schools, have maintained their rank in the grades even before reaching the required chronological age for admission. The same is true of other localities. Is this giving the under-privileged a square deal?

Schools for the deaf admit children to their lip-reading classes at two-and-a-half and three. The earlier the correction of faults is undertaken, the better for all concerned.

A pre-primary school, combining the best features of the nursery school and the kindergarten, would be of inestimable value to this community. It would give more of our children an equal educational opportunity.

How to raise or maintain the educational standard of our schools has become a real problem. With the changes in racial background, home environment, and the social and industrial activities, there is a tendency to slip back into a "comparative mediocrity" which spells the doom of every enterprise. Against this we must be ever watchful and resist all such tendencies. The brighter pupils must be given work commensurate with their ability and held to a strict accountability for its performance. They must take the responsibility and the penalty; they must become the dominant element in our school system---examples

of intellectual attainment which others should strive to follow. Social prestige must give place to intellectual attainment if our standards are to be raised to a higher level.

What I have said here must apply to all intellectual levels. There is no easy-payment plan in real intellectual work. Ability levels must be established and maintained throughout, and individual ability given chance to assert itself.

There is, too, such a thing as personal responsibility. If we can impress this fact upon the minds of our children---and the way to impress it is to hold each individual rigidly up to its performance---we shall give force to our teaching and drive ninety percent of our present-day troubles out of existence

ACKNOWLEDGMENTS.

Space forbids that I do more than enumerate the organizations and individuals that have been so instrumental in promoting the success of our schools during the past year. Our appreciation and gratitude, however, are not so limited, and I wish to assure one and all that they have been most helpful in smoothing our way over many of the rough places that have arisen during these trying times. Please accept my sincere thanks.

First of all I place the Red Cross Organization for supplying milk to so many of our undernourished children. To Mr. Brainard Wallace, our P.W.A. Administrator, is due the sincere thanks of every taxpayer. Through his influence and efforts our school properties have been brought to a physical condition comparable to those of the most favored communities.

To our Town Accountant who, in spite of the exacting labors of his own department, has been most accommodating and courteous. His conduct should be highly commended.

No one questions the reputation of our Fire Department for its splendid work among the children of this town. That has long since been established. There was a dearth of toys this year; but the gifts of money, shoes, and clothing, including

good warm underwear, filled the larger need. These men are worthy of the confidence and support of all broad-minded persons.

The Rotary Club, as usual, made its contribution to the Milk Fund.

The Welfare Department has been of great assistance in many ways. The upkeep of the school grounds has been a part of their special contribution.

We have made some heavy demands upon our Police Department, and they have been met most promptly and with a reasonable degree of success.

The Old Guard who have stood by in our dental clinics for so many years must be given a place here. I know of no more deserving group of men than those dentists who, month after month, have looked after the welfare of our children through the correction of tooth and mouth defects. We should have more of this, and these men should be reimbursed for their skillful work.

I am writing from memory and I fear some contributors may have been unintentionally overlooked. I hope not, however, for all have been helpful.

To our School Committee for its cooperation and guidance through a most trying year successfully closed, I extend my sincere thanks. But for my teachers, one and all, whose loyalty and sympathy in sickness and times of stress have been the rock of my salvation---these and their work I shall hold in everlasting remembrance.

Respectfully submitted,

JOSEPH I. HORTON,

Superintendent of Schools.

No School Signals of the Ipswich Schools.

4 BLASTS AT 7:30—No Morning Session in Any School.

4 BLASTS AT 8:00—No Morning Session in the First Six Grade.

4 BLASTS AT 11:30—No Afternoon Session in the First Six Grades.

In the absence of any signal at 11:30, the afternoon session will be held as usual. Teachers and pupils must be present at such sessions as on other days.

All should bear in mind that the 7:30 and 8:00 o'clock signals DO NOT EXCUSE FOR THE ENTIRE DAY.

In addition to the warning given by the whistle, the street lights will be turned on for five minutes after the signal is given in each case.

In all cases parents are expected to exercise their judgment as to permitting their children to attend school during stormy weather.

On stormy days when the FIRST SIX GRADES are excused for the day by the 8 and 11:30 o'clock signals, the Junior and Senior High Schools will each have a single session closing at 1:30 P. M. The 11:30 o'clock signal will give parents ample warning for postponing the dinner hour.

School Calendar for 1936.

TERM	BEGINS	CLOSES
Winter	December 30, 1935	February 21, 1936
Spring	March 2, 1936	April 17, 1936
Summer	April 27, 1936	Announced Later
Fall	September 9, 1936	December 18, 1936
Winter	December 28, 1936	

Teachers must report for duty on Tuesday, September 8, at 2 P. M., previous to the opening of school for the Fall Term. Examination of pupils who failed of promotion in June will also take place on that day.

Holidays.

Every Saturday; Columbus Day, October 12; Armistice Day, November 11; Wednesday Afternoon, Thursday and Friday of Thanksgiving Week; January 1; Good Friday, April 10.
